

Scoop Sheet August 2016

Howdy Ya'll

Well guess what? It's August and that means less than 5 months till Christmas. Just a point I figured you might like to know. :-) Kind of a scary point wondering where the year went so fast. That means the normal last summer fun weekend is next month. Labor Day marks the closing of the lakes for our summer and weekend friends. It's sad to see them stop coming except once in a while thru winter to check on things. Well the start of this month was busy, with the Board meeting on the first then National Night Out on the 2nd. We asked the people who were running for office in the upcoming election on the 30th of August to attend our get together. WOW did we get a great response to that with ten of them showing up. We had a little dinner planned, but really didn't expect to have 65 plus people come. There hasn't been that many for get together in quite a while. It was very informative to hear the different views of people running. There were Sheriff Candidates, School Superintendent, Tax Collector, and our county commissioner Larry Harvey. It was a great turn out. Now on to your Board Meeting.

Your standing committees; Executive; Bob spoke with Tim Schrock about mowing up & down Holiday. He explained the contract calls for mowing to the tree line on both sides of the road. Tim did state some people asked him not to mow theirs. Bob hasn't heard from Mr. Harvey about the county problem on Oak, but should see him next night. Custodial/Maintenance; Kris needs to make a supply run to Sam's things are getting low. Hall Use; Request for August 21st for birthday party. There was another request but in checking their dues weren't paid and e-mail sent nothing has been heard back. There is one for August 30th for the Primary Elections. Neighborhood Watch; Nothing to report. Welcome Committee; Glenda & Karen met with 3 new people to give them the welcome packet & had a nice discussion with all of them. Yard of the Month; Went to George Clark @ 125 Holiday Dr. great job Bobby keep up the good work. Front Entrance; Bob has the "S" that was broke off to fix it. Activities & Events; National Night Out on the 2nd. Yard Sale; November 5th .Governing Documents; Nothing at this time.

We are looking into using the Square for the payment of maintenance fees, but its only in the looking stage to see if it would work. It's a bit involved and extra work on the treasurer, Anne is checking it out to see if we can use it. Riley Burris has pulled his bid for the beach clean-up, but as Bob was leaving for the meeting Riley stopped and said his boy's would clean it up for free. Thank You to the Burris family. In the upcoming weeks Bob will cut the 4x4's so when it cools off we can get them put down. To folk's selling their property it's your responsibility to provide the buyers a copy of the Charter, Convents & By-Laws if you don't it could come back to give you a big problem. Which means we can call a trapper direct to remove gators. Karen brought some fabric samples to make some new valences for the windows. Don't forget to vote on the 30th. Sometimes you have to give up on people, not because you don't care, but because they don't. Well neighbors that about does it for another month, stay safe and have a great August.
